`%Homework 4/17: Character Data`

`%Express 85 as a character array`  
`A=char(85)`

`%Find the number of elements in the array`  
`numberof=size(A)`

`%Numeric equivalent of character 8. Express as string`  
`B=double('8')`

`%Numeric equivalent of character 5`  
`C=double('5')`

`A =`

`U`

`numberof =`

`1 1`

`B =`

`56`

`C =`

`53`
